thirumuruganra

Executive Summary

Enthusiastic and detail-oriented Computer Science student with a solid foundation in software development and web technologies. Ranked in the top 5% of the batch with strong academic performance. Proficient in Java, Python, and C, with hands-on experience in real-world projects. Showcased versatile leadership by serving as a seven-semester Class Representative, the department's Vice President, and Joint Treasurer for the IEEE Computer Society chapter. An adept problem-solver eager to apply technical skills and innovative thinking to tackle challenges in software development.

Experience

Barclays, Technology Intern

June 2026 – July 2026

Led the containerization of the microservices used by the Model Services CoE team using **Docker**, **Kubernetes**, and **AWS**. Collaborated within a cross-functional team, gaining practical experience in a corporate environment.

Value AI Labs, SWE Intern

Dec 2025 – Feb 2026

Worked on automating WordPress blog publishing and currently implementing automated regression testing for client websites.

Value AI Labs, SWE Intern

June 2025

Key contributor for **BOREX**, a web app for borrower verification in real estate. Built and refined frontend UI and backend AI components, focusing on improving data processing efficiency and accuracy.

Freelance, Video Editor

Jan 2025 – present

Edited 30+ brand and product videos for various local businesses, enhancing digital presence and engagement.

Education

B.E. Sri Sivasubramaniya Nadar College of Engineering, Computer Science and Engineering

2023 – 2027

- CGPA: **8.85** (till 6th Sem), ranked **9th out of 180** students

XII Chettinad Vidyashram, Chennai, Computer Science

2023

- JEE Main Percentile: 98.24%, ranked 20467 among 1.1 million students
- CBSE Board Exam Class 12 Percentage: 97%, ranked 10th out of 820 students
- Awards: School Topper in Chemistry (100%)

X PS Senior Secondary School, Chennai, Mathematics & Science

2021

- CBSE Board Exam Class 10 Percentage: 93%

Projects

WAVC - What's Active In Various Clubs

2026

The first app at SSN to centralize campus club activity. Students find events, RSVP, and check in via QR. Club admins manage events and attendance from one dashboard. Built with React, FastAPI, PostgreSQL, and Supabase Storage, deployed on Heroku.

[Github](#)

Truetone

2026

A LinkedIn writing tool that uses your sample posts and tone preferences to generate drafts that sound like you, not a chatbot. Uses Google Gemini for generation, built with Next.js, Prisma, and PostgreSQL, deployed on Vercel. [Github](#)

PhishTank

2025

Engineered a real-time phishing detection system using ML Models to analyze URLs and emails, deployed via a Chrome extension and Python backend. [Github](#)

Technical Skills

Programming & Development: Java, Python, C

Web Technologies: HTML, CSS, JavaScript

Data Science & AI: Data Analysis, Data Visualization, Generative AI, Machine Learning

Database Technologies: Oracle SQL, MySQL, Database Design, Entity-Relationship models

Certifications

Completed IBM Data Science Professional Certificate on Coursera : [Certificate](#)

Completed Career Essentials in Generative AI by Microsoft and LinkedIn on LinkedIn Learning : [Certificate](#)

Clubs and Activities

Department of Computer Science and Engineering, Vice President

2026 – present
